The following are all concerns being picked up in contact with parent carers:

- Meeting attendance/ support – Annual Reviews
- Mental health advice
- Financial advice
- School choice – CYP at home not attended schools for number of months
- EHCp advice

Your Say – Support parents feel they need:

1. Family support within school
2. Learning support for my son
3. Support to help in home as I am a disabled single mum
4. Emergency respite help or support for mental health crisis
5. Senco quicker response
6. Respite funding
7. Everything. I have no support
8. I feel that families do struggle mentally with the load of being a SEN parent and get lonely. Maybe a parent SEN group or counselling groups for SEN parents to come and share and just be part of a community they know will not judge and understand
9. More parental support as above
10. SEN parent groups
11. Ehcp ASD assessments
12. One to one
13. No support for anxiety
14. Short breaks providers
15. Behaviour support
16. Behaviour management
17. Ok at the moment
18. Social places/needs clubs for holidays & help towards it
19. Support fighting for Ehcp to be completed
20. My child has autism and I'm struggling to get the help and support he needs to lead an independent life, his quality of life depends on the help he gets now. I'm physically and mentally drained due my own health and I'm expected to learn everything so I can fight for the help he should be given by the school and other services.
21. More activities for kids
22. More cheap family events
23. More regular check up on baby development
24. Support worker
25. Support will be from school I feel he is not well supported in area of learning
26. I need more help in school holidays
27. I think that will be great to know who we should ask if there is a problem and also we found out that school has big impact on everything. You have no choice no power to ask and request things will heal your child. In practice they doing what they want and it is not always in our child best interest. Any type of intervention they treat like interfere in school plan.

28. I need support as single mum with kids SEN.

Three more schools have been added, and will be followed up in June

One specific theme coming through from the survey relates to parents reporting that settings are not fully inclusive. The best term to use what parents are reporting is 'lack of reasonable adjustment'

Poor communication is also a running theme across settings.

There is a mix of positive and not so positive reporting.

#### OTHER (IF RELEVANT)

- Planned changes/ work
